3 GL PLUS - NUTRITIONAL ANALYSIS & ASSESSMENT - 60'/370 (INCLUDING 3 GL PLUS-LAB TEST & ASSESSMENT, URINE TEST, RESPIRATORY EQUILIBRIUM)

Euphoria Retreat has worked in collaboration with Eucrasia, an innovative Greek company, Global awarded, in the field of Health Tourism to devise our signature approach to personalised nutrition. We have developed a unique protocol to assess the three most important biomarkers for metabolic health: glucose, glutathione (the body's two main endogenous antioxidants) and glycogen. We measure glucose and glutathione from a few drops of blood. A capillary ergometric scanning indirectly calculates glycogen efficiency. With a urine sample we measure more than 12 active metabolites and metabolically significant amino acids. We call this 3GL Plus, a method that promotes metabolic resetting by a unique and comprehensive Medical-Nutrition-Exercise program to restore and maintain metabolic balance. This information forms the basis of our nutritional approach for each of our guests on our Programmes.

EMOTIONAL TRANSFORMATION - 60'/189€ 90'/263€

During this fascinating and profound hour of self-assessment, your transformational therapist will show you how the Five Elements of both ancient Hellenic medicine: Ydor, Air, Pyr, Gaia, Aethir, and Traditional Chinese Medicine: Water, Wood, Fire, Earth and Metal, are expressed in you in terms of your physical issues and personality traits. You will learn which elements are dominant for you and how all of them can be balanced to enjoy more harmony and fulfilment in life.

HOMEOPATHIC CONSULTATION - 55'/189€ 85'/273€

85'/273€ FULL BIOFEEDBACK PROFILING WITH QEST 4 (SEE BELOW)

This in-depth consultation assesses your health potential from three perspectives: medical, homeopathic and bio-energetic (with Qest4 see below). This allows us to get a complete picture of your unique constitution which helps us tailor, exercise, treatments and general recommendations for your maximum health potential.

BIO-ENERGETIC TESTING WITH QEST 4 - 50'/150€

Biophysics shows that all cells resonate at different frequencies and can transmit and receive electromagnetic energy. The communication between cells plays a big part in the function of all body systems. Healthy and unhealthy cells have very different resonant frequencies. Stress, fungi, bacteria, toxins, hormonal imbalances and viruses can all affect electromagnetic response and resonance at the cellular level. They can interfere with proper absorption and metabolism of nutrients, which in turn can lead to allergies, inflammation and disease. Qest 4 is the most advanced, flexible and user friendly bioenergetic testing that scans the electromagnetic signatures emitted by organs, tissues and cells. There is a wide variety of test signatures that cover points relating to internal organs, food preferences, environmental contaminants, nutritional factors, toxins, emotional patterns, vitamin deficiencies and many more.

LASER TREATMENT (WITH QEST 4) - 15'/45€

Bioenergetic treatment to balance bio-energetic frequencies, as determined first by the Bioenergetic Test with Qest 4.
